

# Central Stool

# Central Stool

The three-legged Central Stool was originally designed by Tamar de Shalit in 1951 as a student at London's Central School of Arts and Crafts. The smooth, half-moon, turned wooden form features three tapered legs and crafted mortise and tenon joints. The piece works either as an occasional table or a stool; its straight side can align with the wall or if paired with another stool forms a fully circular table, which is then secured with hidden magnet fixings.

The Central Stool is a versatile seat or side table. It can be purchased as a single unit (1 stool) or as a pair (2 stools). A pair of stools is more sustainable to produce, thus more economical to purchase; here the two top surfaces are CNC'd from boards of solid hardwood, that are a premium AA rating, with matching grains and colouration. The packaging for one piece or a pair of stools is the same size. Fixed imbedded felt feet pads are partially recessed into the leg and come as standard.

Dimensions	W46.5 × D27 × H43.5 cm (single) Ø46.5 × H43.5 cm (pair)
Weight	2.1 kg (single) 4.2 kg (pair)
Material	Solid FSC timber: Natural ash, black stained ash, natural oak
Finish	Oiled
CoO Origin	PL
Tests and Certifications	Tests: EN 16139:2013, BS EN 15372:2016, BS EN 15372:2016 Certificates: FSC 100% and PEFC 100%
Package dimensions	W49.5 × D36 × H48.5 cm
Packaged weight	3 kg (single) 6 kg (pair)
Availability	Lead time 8–10 weeks
Warranty	2 years
