

Clore Dining Table

Clore Dining Table

Clore Dining Table

The Clore Dining Table joins the Clore Coffee Tables as part of the Clore Collection, referencing the 1960s penthouse designed by Tamar de Shalit. The new reimagined piece features solid wood framing and is available with extra-clear or smoked toughened glass and solid wooden tops matching the timber frames. The glass tabletops simply rest neatly, without fixings, (on clear protective bumpers) on top of the frame, its weight securing the design. The timber tops are secured to the base.

The frame of the Clore Dining Table can be purchased separately, allowing customers to locally source their own tops (reducing carbon footprint). It arrives flat-packed in 4 pieces and slots together in minutes with a few fixings. Fixed felt feet pads come as standard. Top specifications available on request. N.B. Glass tops are supplied to the UK only. *

Dimensions	Frame only: L200×D88×H74 cm Glass top only: 200×90×1.2 cm Wood top only: 200×90×3.3 cm Complete table: L200×W98×H74/75 cm
