

Red Rock Club Lounge Table

The Red Rock Club Lounge Table originates from a furniture series custom-created for the famous 1970s Red Rock Hotel and Club, designed by Arthur Goldreich and Tamar de Shalit. This piece follows the same principles as the Red Rock Club Chair and Stool with the distinctive broad turned legs and curved tapered feet; the table has a compact footprint and has a table height of 60 cm. The stool is crafted from European sustainably sourced timbers – natural oak, ash and black stained ash – with an oiled finish. Fixed inserted felt feet pads are standard. Its refined construction means that the legs simply screw on, making it easy to transport. Fixed felt feet pads are partially recessed into the legs and come as standard.
