# Central Stool

The three-legged Central Stool was originally designed by Tamar de Shalit in 1951 as a student at London's Central School of Arts and Crafts. The smooth, half-moon, turned wooden form features three tapered legs and crafted mortise and tenon joints. The piece works either as an occasional table or a stool; its straight side can align with the wall or if paired with another stool forms a fully circular side table, which is then secured with hidden magnet fixings.

The Central Stool is a versatile seat or side table. It can be purchased as a single unit (1 stool) or as a pair (2 stools). A pair of stools is more sustainable to produce, thus more economical to purchase; here the two top surfaces are CNC'd from boards of solid hardwood, that are a premium AA rating, with matching grains and colouration. The packaging for one piece or a pair of stools is the same size. Fixed imbedded felt feet pads are partially recessed into the leg and come as standard.

# Clore Floor Lamp

The Clore Floor Lamp, is Tamart's first lighting design and joins the Clore Collection originally designed by Tamar de Shalit for Sir Charles Clore's 1960s penthouse. Offering a diffusive illumination, the lamp features an elliptical handblown opaque glass shade, that sits within a solid wooden cradle. The traditionally crafted ovoid shade is made in Czechia by artisans layering opaque white and clear polished glass. The sturdy timber base is offered in Tamart's sustainably sourced and premium AA graded hardwoods: natural oak, ash and black stained ash, with a black braided cable and a foot dimmer.

With its commanding poised presence, the hybrid 'furniture-lamp' offers timeless elegance brought to life for a new generation; the light can be specified for a range of projects from residential and hospitality, to living spaces and breakout areas. Fixed imbedded felt feet pads are partially recessed into the legs and come as standard. This product is delivered in 2 boxes.

Dimensions	W41 × D41 × H83.2 cm Shade: H41 cm × Ø30.5 cm
Weight	7 kg
Material	Solid FSC timber: Natural ash, black stained ash, natural oak Opaque polished handblown glass

# Clore Lounge Chair

The Clore Lounge Chair references the private penthouse of the late philanthropist and arts patron Sir Charles Clore, whose home Tamar de Shalit designed in 1963. The chair features a gently curved seat and back on a reclined timber frame. The (no-foam) upholstery is made with layers of 100% natural and recycled materials, onto a solid wood stretcher. The compact easy chair is perfect for both residential and public environments. The chair is complemented by the Clore Ottoman, Clore Coffee Table and Clore Floor Lamp in the Clore furniture range.

The chair is offered in a range of fixed covers in natural wool textiles, including Contrast, an exclusively produced black and white woven wool fabric (produced by Bute Fabrics) based on an original fashion textile designed by Tamar de Shalit. Customers Own Material (COM): 2 metres per chair is available subject to the fabric approval by Tamart. The cushioned seat and back can be removed for reupholstery. Fixed inserted felt feet pads are standard.

# Clore Ottoman

The Clore Ottoman references the private penthouse of the late philanthropist and arts patron Sir Charles Clore, whose home Tamar de Shalit designed in 1963. The ottoman follows the same principles as the Clore Lounge Chair and can be used as a footrest or independently as a stool. The (no-foam) upholstery is made with layers of 100% natural and recycled materials, onto a solid wood stretcher. The low seating option is perfect for both residential and public environments and is part of Tamart's Clore furniture collection.

Offered in a range of fixed covers in natural wool textiles, including Contrast, an exclusively produced black and white woven wool fabric (produced by Bute Fabrics) based on an original fashion textile designed by Tamar de Shalit. Customers Own Material (COM): 1 metre per seat is available subject to the fabric approval by Tamart. The cushioned seat can be removed for reupholstery. Fixed inserted felt feet pads are standard.

# Clore Coffee Table

The Clore Coffee Table references the private penthouse of the late philanthropist and arts patron Sir Charles Clore, whose home Tamar de Shalit designed in 1963. The coffee table features solid wood frames that are crafted with pocket dovetail joinery details for tool-free assembly. The tabletop simply rests neatly, without fixings, (on clear protective bumpers) on top of the frame, its weight securing the design. The Clore Coffee Table is available with either extra-clear or smoked, toughened glass, stone or solid wood tops, the latter matching the premium AA graded hardwood table frames.

The timber base of the Clore Coffee Table can be purchased as a 'frame only' item, allowing the customer to locally source their own tops (reducing carbon footprint). It arrives flat packed in 4 pieces and simply slots together with the gentle aid of a G-clamp. Fixed felt feet pads are partially recessed into the legs and come as standard. Top specifications available on request. N.B. Glass tops are supplied to the UK only. \*

# Clore Dining Table

The Clore Dining Table joins the Clore Coffee Tables as part of the Clore Collection, referencing the 1960s penthouse designed by Tamar de Shalit. The new reimagined piece features solid wood framing and is available with extra-clear or smoked toughened glass and solid wooden tops matching the timber frames. The glass tabletops simply rest neatly, without fixings, (on clear protective bumpers) on top of the frame, its weight securing the design. The timber tops are secured to the base.

The frame of the Clore Dining Table can be purchased separately, allowing customers to locally source their own tops (reducing carbon footprint). It arrives flat-packed in 4 pieces and slots together in minutes with a few fixings. Fixed felt feet pads come as standard. Top specifications available on request. N.B. Glass tops are supplied to the UK only. \*

# Highgate Chair

The new Highgate Chair takes its design cues from essential modernist principles with its simple rectangular construction and strict geometric appearance inspired by designs from the 1960s in Tamart's archive. The contemporary pill-shaped, comfortably angled back and bullnose curved stile tops and feet soften the appearance while the fine, naturally dyed leather sling-style seat gives the chair a lightness. The light padded leather seat, with contrast stitching is tension-fitted allowing the comfort to be adjusted and refreshed.

The perfect companion to Tamart's Clore Dining Table as a meeting or dining chair. The versatile side chair is suitable as a stand-alone seat for community meetings and ecclesiastical areas, or residential and hospitality dining. The timber frame is offered in sustainably sourced natural oak and black stained ash with a choice of matching or contrasting colours of natural vegetable-tanned leather sling seats. Fixed felt feet pads are partially recessed into the legs and come as standard.

\*New: Timber and fabric seats available in 2026

# Highgate Chair with Arms

The new Highgate Chair with Arms, the more generous companion to the Highgate Chair, takes its design cues from essential modernist principles with its simple rectangular construction and strict geometric appearance. The contemporary pill-shaped, comfortably angled back and bullnose curved stile tops and feet soften the appearance, while the fine, naturally dyed leather sling-style seat gives the chair a lightness. The light padded leather seat, with contrast stitching is tension-fitted allowing the comfort to be adjusted and refreshed.

The arm height fits perfectly under Tamart's Clore Dining Table. The versatile chair is suitable as a stand-alone seat for meeting and reception areas or residential and hospitality dining. The timber frame is offered in sustainably sourced natural oak and black stained ash with a choice of matching or contrasting colours of natural vegetable-tanned leather sling seats. Fixed felt feet pads are partially recessed into the legs and come as standard.

# Highgate Bar Stools

The Highgate Bar Stool is a new addition to Tamart's seating range, drawing design cues from modernist principles that define the Highgate collection. With a 80cm seat height, this elegant, sturdy piece is offered in two models: one featuring the signature pill-shaped lumbar backrest, and a spare, elemental backless design. The padded leather sling-style seat utilises 'Tamart innovation' tension-fitting, allowing comfort to be adjusted and reset as needed. An ideal companion to any hotel bar or workplace environment. Fixed felt feet pads are partially recessed into the legs and come as standard.

# Highgate Counter Stools

Complementing the Highgate collection, the Counter Stool brings refined modernist design to counter-height spaces. With a 65 cm seat height, this versatile piece mirrors the principles of its taller counterpart. Available in two models – with the characteristic pill-shaped lumbar support or in a clean, backless configuration – each features the signature padded leather sling seat with 'Tamart innovation' tension-fitting for adjustable comfort. Perfect for kitchen islands, counter dining and workplace environments. Fixed felt feet pads are partially recessed into the legs and come as standard.

# Red Rock Club Chair

The Red Rock Club Chair originates from a furniture series custom-created for the famous 1970s Red Rock Hotel and Club, designed by Arthur Goldreich and Tamar de Shalit. The chair offers a compact footprint and low seating, giving it a naive and playful feel. Its stiles are topped with tactile carved spheres, inviting people to hold on while standing behind. The chair features solidly proportioned legs which taper at the feet and feel pleasingly substantial.

Offered in a range of fixed covers in fabric or leather, including Contrast, an exclusive Tamart monochrome woven wool fabric (produced by Bute Fabrics) based on an original 1980s textile designed by Tamar de Shalit. Customers own materials (COM) are subject to approval by Tamart. The cushioned seat and back can be removed for reupholstery. Fixed felt foot pads are partially recessed into the legs and come as standard.

# Red Rock Club Stool

The Red Rock Club Stool, which also works as a side table, originates from a furniture series custom-created for the famous 1970s Red Rock Hotel and Club, designed by Arthur Goldreich and Tamar de Shalit. This piece follows the same principles as the Red Rock Club Chair with its solidly proportioned legs which taper at the feet. The stool is crafted from Tamart's sustainably sourced timbers – natural oak, ash and black stained ash, with an oiled finish. The furniture arrives assembled as one piece. Fixed inserted felt foot pads are standard. Fixed felt foot pads are partially recessed into the legs and come as standard.

# Red Rock Club Lounge Table

The Red Rock Club Lounge Table originates from a furniture series custom-created for the famous 1970s Red Rock Hotel and Club, designed by Arthur Goldreich and Tamar de Shalit. This piece follows the same principles as the Red Rock Club Chair and Stool with the distinctive broad turned legs and curved tapered feet; the table has a compact footprint and has a table height of 60 cm. The stool is crafted from European sustainably sourced timbers – natural oak, ash and black stained ash – with an oiled finish. Fixed inserted felt feet pads are standard. Its refined construction means that the legs simply screw on, making it easy to transport. Fixed felt feet pads are partially recessed into the legs and come as standard.

# Colours and Materials

All Tamart products are made in the UK and Europe. Tamart takes great care to use the finest quality or recycled materials and employs sustainable production techniques to enhance the lifespan of each piece of furniture. All Tamart products are repairable and recyclable. Read our sustainability statement [here](#).

## Wood

All Tamart wooden products are crafted by producers that use European FSC timbers, and an oiled (plant-based) finish, and are available in black-stained ash, or natural ash and oak. With 40% less waste, the black stained ash is the most sustainable timber.

## Glass | Clore Tables

12mm Toughened, extra clear PAR. Glass tops are only supplied in the UK, please contact us for outside UK deliveries.

## Glass | Clore Lamp Shade

Handblown opaque glass crafted in Czechia by artisans using metals moulds and by layering opaque white and clear polished glass.

## Leather

The natural vegetable-tanned leathers are sourced in Europe and are available in black, natural or chestnut colours.

## Upholstery

Layers of recycled and natural pure fibres are built by hand over solid timber frames and stretchers.

## Textiles

Each upholstered piece is offered in a range of natural wool textiles from the British textile producers Mournie Textiles (fabric 02 Mist, Pebble, fabric 03 Cloughmore) and Bute Fabrics (fabric 01 Teddy), as well as an exclusive Tamart-designed fabric called Contrast. Customers Own Materials (COM) is also offered.

## Contrast

A 100% pure new wool tweed, is exclusively produced for Tamart's debut product collection. Tamart has worked closely with Bute Fabrics to develop the Bute Tweed range, to create Contrast – a bespoke black and white woven fabric based on an original fashion textile designed by Tamar de Shalit.
