

Highgate Bar Stools

Highgate Bar Stools

The Highgate Bar Stool is a new addition to Tamart's seating range, drawing design cues from modernist principles that define the Highgate collection. With a 80cm seat height, this elegant, sturdy piece is offered in two models: one featuring the signature pill-shaped lumbar backrest, and a spare, elemental backless design. The padded leather sling-style seat utilises 'Tamart innovation' tension-fitting, allowing comfort to be adjusted and reset as needed. An ideal companion to any hotel bar or workplace environment. Fixed felt feet pads are partially recessed into the legs and come as standard.

*New: Timber and fabric seats available in 2026
