

# Highgate Chair with Arms

# Highgate Chair with Arms

The new Highgate Chair with Arms, the more generous companion to the Highgate Chair, takes its design cues from essential modernist principles with its simple rectangular construction and strict geometric appearance. The contemporary pill-shaped, comfortably angled back and bullnose curved stile tops and feet soften the appearance, while the fine, naturally dyed leather sling-style seat gives the chair a lightness. The light padded leather seat, with contrast stitching is tension-fitted allowing the comfort to be adjusted and refreshed.

The arm height fits perfectly under Tamart's Clore Dining Table. The versatile chair is suitable as a stand-alone seat for meeting and reception areas or residential and hospitality dining. The timber frame is offered in sustainably sourced natural oak and black stained ash with a choice of matching or contrasting colours of natural vegetable-tanned leather sling seats. Fixed felt foot pads are partially recessed into the legs and come as standard.

\*New: Timber and fabric seats available in 2026
