

Crafted with a focus on quality, material honesty and thoughtful design, Tamart furniture and lighting bring a quiet confidence to contemporary interiors. From Maggie’s cancer care centre to workplaces, residential developments and sensitive London renovations, our pieces and lighting adapt naturally to diverse architectural settings.

Each project reflects our belief that well-designed pieces should complement their surroundings, adding character without overpowering the space.

‘Design plays a pivotal role in the support we offer people living with cancer. We know that the right environment can help people relax and find the emotional space they need. We are delighted to include furniture from Tamart in our North Wales centre.’
– Dame Laura Lee DBE, Chief Executive, Maggie’s
